v. 3

UNITED STATES DEPARTMENT OF AGRICULTURE

SOIL CONSERVATION—INDEX TO VOLUME III

JULY 1937—JUNE 1938

Page	Page
ABBOT, H. D.: C. C. C. Operations.....	237-238
Agriculture, post-war, in Czechoslovakia. Guy R. Stewart.....	104-105
Agronomic briefs. C. R. Enlow.....	183
Annuals, wide-row plantings. Frank B. Harper.....	163-164
ANTHONY, HAROLD G.—	
Goforth's Stores Stand Idle—Her Streets Grow Weeds..	47, 50
Meadow Outlet Strips.....	153-154, 170
Pictures That Tell the Story.....	294
Water Spreading at San Angelo. With R. M. Milhollin.	35-37
BAILEY, R. Y.: Heavy Duty Vegetation for Erosion Control. 42, 46	
Banks, roadside, stabilization. F. R. Dreibelbis and Helmut Kohnke.....	38-40, 52
Basin listing to retain snow moisture. V. H. Florell.....	194-195
Beaver, as an upstream engineer. Paul M. Scheffer.....	178-181
BECK, VIRGIL S.: Stabilizing the Dust Bowl. With D. A. Dobkins.....	157-158, 167
BENNETT, H. H.—	
Foreword to Soil Conservation, September 1937.....	53
Sunshine and Shadow.....	30-33
The Opportunity Broadens.....	235
Bermuda grass king. Angus McDonald.....	97-99
BLOOM, MERLE W.: Contour Furrows Constructed Without Loss of Sod.....	105-106
Book reviews and abstracts. Phoebe O'Neill Faris. Each issue except April and June.	
Bottomlands, protecting from erosional debris: a case history. Carl B. Brown.....	93-96
BRANDT, A. E.—	
Size and Shape of Control Plots for Run-off Studies...	209-210
What We Have Learned About Terrace Spacing at Guthrie, Oklahoma. With G. W. Musgrave.....	267-269
BRIGGS, C. R.: Straw Farming.....	169-170
BRINK, WELLINGTON—	
Blotters Instead of Shingles.....	186-189
BROWN, CARL B.: Protecting Bottomlands From Erosional Debris: A Case History.....	93-96
Buckbrush, value in checking dams. W. W. Russell and L. H. Kahler.....	155-156
CAMPBELL, J. PHIL: Associations Lay Groundwork for Legally-Constituted Districts.....	132-134, 137
Canadian West, control of soil drifting in. A. H. Joel.....	111
Cedar, new, for erosion control. Charles F. Swingle.....	75-78
CHAMBERS, T. B.: Engineering Phase.....	60-63, 70
China, sand rivers of. W. C. Lowdermilk.....	1-4, 26-27
Civilian Conservation Corps—	
enrollee, aid in northeastern orchards. James A. Seaman.....	243
enrollee and soil conservation. George P. Tyner.....	239
operations. H. D. Abbot.....	237-238
work, opportunities, viewing by selecting agency. W. Frank Persons.....	240-241
Civilian Conservation Corps—Soil Conservation Service camp experience acquired in, how to use. Cecil O. Giesler.....	242, 246
Climatic and Physiographic Research, Section of. See under Soil Conservation.	
CONNAUGHTON, MARK P.: Preliminary Notes on Reservoir Studies in the Great Plains States.....	232-233
Conservation—	
contrast with erosion.....	279
soil. See Soil conservation.	
Contour—	
balk method, opportunities. B. H. Hendrickson.....	107
furrows—	
construction without loss of sod. Merle W. Bloom.....	105-106
620 miles, stabilize Pocatello hillsides. Glenn M. Querna.....	171-172, 177, 202
value in erosion control program.....	288
CRIDER, F. J.: Propagation [of Plants].....	68-70
Crop residues. Chart, back cover. December 1937.	
Cropping, strip—	
in Ohio, hill country. J. S. Cutler.....	151-152, 168
some pointers. Chart, back cover. August 1937.	
value in erosion control program.....	287
Crops, use in erosion control program, references. Inside back cover. March 1938.	
CUTLER, J. S.—	
Ohio Valley Launches Extension Program.....	34, 50
Strip Cropping in Hill Country of Ohio.....	151-152, 168
Cutters, home-made, for sod.....	261-262
Czechoslovakia, post-war agriculture and soil erosion in. Guy R. Stewart.....	104-105
DAHL, ARNOLD S.: Rebuilding Pasture Soils.....	196-199
Dams, checking by buckbrush. W. W. Russell and L. H. Kahler.....	155-156
DAVIS, ARNOLD: Bringing Erosion Control to Some Highways.....	48-50
Debris, erosional, protecting bottomlands from, a case history. Carl B. Brown.....	93-96
DETWILER, S. B.—	
Fifty Years' Experience Gives Japan Simple, Effective [Soil Conservation] Program.....	9-10
Slope Usage.....	64-67, 83-84
The Soil-Saving Persimmon.....	230-231
DIENER, H. C.: Farm Planning.....	82-83
DOBINS, D. A.: Stabilizing the Dust Bowl. With Virgil S. Beck.....	157-158, 167
DOBSON, G. C.: Relation of Sedimentation Studies to a Flood-Control Program.....	219, 232, 234
DREIBELBIS, F. R.: Stabilization of Roadside Banks. With Helmut Kohnke.....	38-40, 52
"Dust bowl"—	
problem, solution in Vermont. C. B. Maita, Jr.....	146-147
stabilizing. D. A. Dobkins and Virgil S. Beck.....	157-158, 167

	Page
Easterday, A. M.: Weed Terraces.....	45-46
Economic implications of a soil and water conservation program. Walter J. Roth and Alexis N. Garin.....	223-225
Employment selecting agency, view of C. C. C. work opportunities. W. Frank Persons.....	240-241
Engineer, upstream, example of beaver. Paul M. Scheffer. 178-181	
Engineering practices in erosion control, references. Inside, back cover. May 1938.	
ENLOW, C. R.: Agronomic Briefs.....	185
Enrollee. <i>See</i> Civilian Conservation Corps enrollee.	
Erosion—	
contrast with conservation.....	279
control—	
bringing to some highways. Arnold Davis.....	48-50
ecological principles. W. C. Lowdermilk.....	54, 59
engineering phase. T. B. Chambers.....	60-63, 70
heavy duty vegetation for. R. Y. Bailey.....	42, 46
in Great Plains, helping by means of windbreaks. George W. Hood.....	247-249, 254, 257
introduced plants used in, list.....	115
practices in Missouri, withstanding tests that come once in a century. R. H. Musser.....	43-44, 52
promising new cedar for. Charles F. Swingle.....	75-78
some important introduced plants in. Chart, back cover. July 1937.	
State legislation for. Philip M. Glick.....	120-125
debris, protection of bottomlands from, a case history. Carl B. Brown.....	93-96
ecological relations. Charles J. Whitfield.....	262-264, 270
experiment stations, results of erosion control program. soil—	290-292
cause and consequence.....	274-279
in Czechoslovakia. Guy R. Stewart.....	104-105
in Madagascar. Charles F. Swingle.....	102-104
problems on irrigated farm land. Dana F. Kirkmire.....	112-114, 116
wind, control, research contributions. H. H. Finnell..	235-257
PARIS, PHORBE O'NEALL: Book Reviews and Abstracts. Each issue except April and June.	
Farm—	
land, irrigated, soil-erosion problems. Dana F. Kirkmire..	112-114, 116
old, new life for. Walter V. Kell.....	79-81, 84
planning. H. C. Diener.....	82-83
Farmer, mutual interest with society in land. M. L. Wilson.....	117-119, 143
FECHNER, ROBERT: Youth and the Land.....	236
Fences, use in saving soil. Ivy M. Howard.....	159-160
Fertilizers, use in erosion control program, references. Inside [back cover. March 1938.	
Film strips, list. Inside, back cover. June 1938.	
FINNELL, H. H.: Research Contributions to Wind Erosion Control.....	235-257
Flood control—	
A. L. Patrick.....	55-57
articles in Soil Conservation, volumes 1 and 2, list.....	114
program, relation to sedimentation studies. G. C. Dobson.....	219-222, 234
FLÓREZ, V. H.: Basin Listing to Retain Snow Moisture.....	194-195, 200, 202
Forest destruction in Madagascar. Charles F. Swingle..	102-104
FULGHUM, RALPH: Water Disposal Plan Required..	148-150, 167
Furrows, contour. <i>See</i> Contour furrows.	
GAPEN, KENNETH M.: Grass and Water Storage on a Quarter-Million Acre Ranch.....	161-162, 168, 170
GARIN, ALEXIS N.: Economic Implications of a Soil and Water Conservation Program. With Walter J. Roth. 223-225	
GARSTKA, WALTER URBAN: In-Place Lysimeters Near Co-shocon, Ohio.....	91-92
GEISLER, CECIL O.: How I Plan to Use Experience Acquired in an S. C. S.C. C. C. Camp.....	242, 246
GLICK, PHILIP M.: State Legislation for Erosion Control. 120-125	
Gold in grass roots. Harry E. Reddick.....	165-167
"Good heart", maintaining English soils in. J. Everard Hosking.....	5-8, 13, 28
Grass—	
in action. Ivy M. Howard.....	239-261
roots, gold in. Harry E. Reddick.....	165-167
seed. M. M. Hoover.....	72, 84
storage on quarter-million acre ranch. Kenneth M. Gapan.....	161-162, 168, 170
value in erosion control.....	284-286
Grasses, native in Pacific Northwest. Chart, back cover. September 1937.	
Great Plains—	
erosion control by means of windbreaks. George W. Hood.....	247-249, 254, 257
problems, parallel to those of South Africa. Lois Olson. 18-21	
Great Plains States, reservoir studies in, preliminary notes. Mark P. Connaughton.....	232-233
Growth, synthetic, substances for, new development. V. T. Stoutemyer.....	182-184, 189, 199, 202
Gullies, elimination by erosion control program.....	276-277
HARPER, FRANK B.: Wide-Row Plantings of Annuals..	163-164
HENDRICKSON, B. H.: Opportunities for the Contour Bank Method.....	107
Highways, some, bringing erosion control to. Arnold Davis.....	48-50
Hillsides, Pocatello, stabilizing by 620 miles of contour furrows. Glenn M. Querna.....	171-172, 177, 202
Home-made sod cutters.....	261-262
Hood, GEORGE W.: Windbreaks Help Control Erosion in the Great Plains.....	247-249, 254, 257
HOOPER, M. M.: Grass Seed.....	72, 84
HOOKING, J. EVERARD: Maintaining English Soils in "Good Heart.".....	5-8, 13, 28
HOWARD, IVY M.—	
Grass in Action.....	239-261
Pioneers of Today.....	244-246
Soil-Saving Fences.....	159-160
Humus and soil conservation. Selman A. Waksman..	250-254
Hydraulics, studies, references. Inside back cover. October 1937.	
Hydrologic—	
cycle, re-examination. C. W. Thornthwaite.....	85-91
investigations on selected watersheds. C. E. Ramser. 215-219	
Hydrology, studies, references. Inside back cover. October 1937.
